

**West Nile Virus Prevention, Surveillance, and Control Workshop**  
**December 9, 2004**  
**9:00 to 4:00**  
**Hilton Sacramento Arden West**

Workshop Objectives

1. To evaluate West Nile virus (WNV) disease prevention, surveillance, and control activities in 2004
2. To identify issues that need to be addressed to improve prevention, surveillance and control of WNV in 2005
3. To identify solutions to issues prior to the 2005 WNV season
4. To discuss the use of the California Mosquito-borne Virus Surveillance and Response Plan and recommend changes to the Plan for 2005

Workshop Format

For each of the topics listed below, the following will be presented:

- A brief summary of WNV activity in 2004
- Issues and challenges faced in 2004
- Solutions to issues and challenges during 2004 WNV season
- Outstanding issues to be addressed prior to or during the 2005 WNV season
- Response activities relative to the California Mosquito-borne Virus Surveillance and Response Plan (afternoon session only)
- Panel discussion / questions from workshop participants (15 minutes)
